(4) Plant and machinery necessary for the manufacture of liquors in the Distillery which will ~~form~~^{be} the property of Government will be let out to the contractor who should pay hire at a rate of 12½ per cent per annum based on the valuation of the said plant and machinery. Such improvements, additions or renewals as may be approved by the Excise Commissioner will be carried out at Government cost and the same added to the original value of the stock and block and machinery subject to the payment by the contractor of additional hire as may be fixed by the Excise Commissioner at the rate as aforesaid. The decision of the Excise Commissioner as regards the valuation and the amount of hire payable thereon is final. ~~The contractor is not entitled to compensation for any loss sustained by him by the delay caused in executing such repairs or by accidental breakage of the machinery.~~

(5) ~~The contractor is bound to take all reasonable care of the plant, machinery, etc., entrusted to him and hand them over correctly to Government at the termination of his contract. He is also liable to make good the loss if any machinery gets out of order or is lost on account of his negligence or laches. The Excise Commissioner will be the final authority to decide whether or not any machinery is lost or damaged on account of the contractor's negligence or by any of his employees and what amount should be recovered from him. Additions and replacements other than those due to the neglect of the contractor will be attended to by Government who will be the sole judges as to whether any addition or replacement is necessary or not. The contractor will be permitted to attend to all ordinary emergent repairs which are incidental to the working of the machinery after obtaining the previous sanction of the Excise Commissioner or any other Officer authorised by him when he will be reimbursed for the actual cost incurred by him. The contractor shall be bound by such rules as may be prescribed by the Excise Commissioner from time to time as regards repairs, additions and replacements, the payment of additional hire for such improvements, the custody and use of machinery, etc.~~

(6) The contractor shall keep in store at the Central Distillery, ordinarily a supply of ordinary arrack sufficient for a month's consumption (32,000 gallons), and never less than 25,000 gallons (of admissible spirits) in terms of 35° U. P. and also a month's supply of other kinds of liquors.

(7) ~~The spirits manufactured shall be of good quality and filtered water or distilled water shall be invariably used at the distillery under the supervision of the Distillery Officer for reducing spirits to the authorised strength. Filtered water shall be supplied by Government and will be under the control of the Distillery Officer. Its use is limited to the reduction of the spirits only. The articles used in distilling will be approved by the said officer. No ingredients obnoxious to health will be used in distilling or put into the arrack or other country spirits or special liquors whether before or after they are manufactured. The spirits manufactured shall not be adulterated or diluted save by the addition of filtered or distilled water, as the case may be, for the purpose of reducing the strength to the authorised degree.~~

(8) In outlying tracts where, owing to small consumption or other causes, there is reason to suspect illicit distillation, Government will be at liberty to establish outstills after giving the manufacturers the first refusal of so doing. Government may also permit any person or persons to distil or purchase elsewhere alcohol for industrial or medicinal purposes, if the contractor is unable to supply the same at the same price as that charged in the adjoining British Indian Provinces.

(9) The contractor shall issue at the Government Central Distillery to the Senior Government Officer in charge thereof, such quantity of arrack and other kinds of country spirits as may be indented for by him for supply, (i) to such Bonded Depots and warehouses as Government may, from time to time, establish and maintain within the State; (ii) to such other places or persons or institutions as may be directed by the Excise Commissioner; and (iii) to the Government Excise Warehouse in the Civil and Military Station, Bangalore, in compliance with indents received from the Superintendent of Excise, Civil and Military Station, Bangalore.

(10) Arrack supplied to the Civil and Military Station, Bangalore, will not be paid for in advance, but once in a fortnight on receipt of bills from the contractor to be submitted to the Collector, Civil and Military Station, through the Superintendent of Excise. In the case of issues made to the State, the Distillery Officer will issue a cheque at such intervals as may be prescribed by the Excise Commissioner on the Officer in charge, State Huzur Treasury, Bangalore, to the contractor and in his favour for the value of arrack and other country spirits, if any, issued.

(11) The contractor will supply at the Distillery, denatured spirits ~~and rectified spirits~~ on the indents received from the respective licensees and recover the value thereof from the parties direct. ~~The cost of carriage will be payable by themselves.~~

(12) Should the contractor be permitted with the approval of Government at any time during the tenure of his contract, to supply country spirits manufactured in the Central Distillery to Coorg, or any other place outside the limits of the Mysore State, such proportionate cost towards the Distillery Establishment as may be fixed by the Excise Commissioner shall be paid by the contractor. *or spirits*

at (13) The bulk of the arrack required shall always be of the ordinary sort, i.e. sugar cane jaggory or molasses arrack and the contractor shall be bound to supply such arrack ~~at~~ such strength and in such quantities as may be prescribed by the Excise Commissioner and the rates to be paid shall be calculated proportionately upon the prices of 35° U. P. I to meet the demand for the quantity of molasses arrack prescribed under this clause by the

2. I am to request you to be so good as to obtain the concurrence of the Honorable the Resident in Mysore for the acceptance of the above rates of the lowest tenderer as regards the supply of liquors to the Civil and Military Station.

3. The price of arrack now charged to the licensees in the State is Re. 1-4-0 per gallon and it is proposed to continue this rate unaltered for the next year. I am to suggest that to secure uniformity the same rate viz., Re. 1-4-0 per gallon may kindly be adopted for selling arrack to licensees in the Civil and Military Station with effect from the 1st July 1932.

The favor of an early reply is requested.

I have the honor to be,
